Planning, Environmental, and Regulatory Division

Kathy Boydston  
Texas Parks and Wildlife Department  
4200 Smith School Road  
Austin, Texas 78744

Dear Ms. Boydston:

The U.S. Army Corps of Engineers (USACE) is assessing the potential impacts to the environment which may result from the proposed construction of the Clear Fork M-210 Part 2 Relief Sanitary Sewer Siphon Project proposed by the City of Fort Worth within the Fort Worth Floodway, Fort Worth, Texas. The Clear Fork M-210 Part 2 Relief Sanitary Sewer Siphon Project is a proposed sewer line replacement and outfall facility located along the south bank of the Clear Fork of the Trinity River between Rodgers Road and South University. Proposed modifications to USACE public works by non-federal entities must adhere to 33 U.S.C. Section 408, including National Environmental Policy Act (NEPA) compliance. The City of Fort Worth submitted a Section 408 Request for review, including NEPA compliance coverage under the Programmatic Environmental Assessment (PEA) for Civil Works Minor Section 408 NEPA Compliance dated April 11, 2011, with a Finding of No Significant Impact (FONSI) signed April 15, 2011 as a Future Minor Section 408 Request. Due to riparian woodland impacts, a supplemental environmental assessment was prepared to address impacts not disclosed in the PEA. Blanton & Associates, Inc., on behalf of the City of Fort Worth, Texas, have prepared a Draft Supplemental Environmental Assessment (SEA) to address NEPA compliance and disclose all associated impacts for public review.

A Public Notice has been prepared to notify the public of this action and to solicit comments. The Public Notice, draft FONSI and SEA are enclosed with this communication for your review and to solicit any additional comments or concerns your agency may have regarding this action. We will consider any comments that we receive from you by the close of the comment period as indicated on the Public Notice. Please address any comments you may have to the contact indicated in the Public Notice. Thank you for your cooperation in this matter.

Sincerely,

A handwritten signature in black ink, appearing to read "Eric Verwers".
