Re: LUST ID NO. 95021

Dear Ms. Miller:

This letter will confirm our telephone conversation of Monday, July 16, 1990, regarding the testing of the six 25,000 gallon underground storage tanks at the Laredo International Airport.

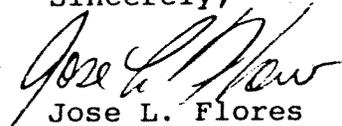

I am pleased to report that all six tanks passed the tank tightness test. Certificates to that effect will be provided to your office as soon as same are provided to the City of Laredo.

Regarding testing of the pipe system. This was not completed because during testing under pressure some of the valves leaked. Repairs will be made as soon as possible and the lines tested.

City Council, on Monday, July 16, 1990, awarded a contract to Environmental Associates, Inc., to perform the site assessment.

Thank you for your assistance. I will keep you informed every step of the way.

Sincerely,

  
Jose L. Flores  
Airport Director
