20 Aug 2021

MEMORANDUM FOR: Area Engineers, Fort Worth District

SUBJECT: Construction Quality Management (CQM) Training Memo

1. This memo supersedes the previous memo dated 30 Jul 2021. This memo contains updates to be in compliance with ECB 2021-11.
2. CQM training is temporarily suspended until the travel, attendee size, face coverings, and distance (6') restrictions are lifted.
3. All current CQM certificate holders expiring on or after 01 Mar 2020 shall be extended 6 months after the restrictions are lifted or upon expiration of their current certificate, whichever is later.
4. Contractor personnel that meet all other contract requirements of the Contractor Quality Control Manager (CQCM) but have not earned the CQM certificate shall be permitted to serve as CQCM. This is conditional acceptance; the individual will have 120 days to obtain the certificate after restrictions are lifted. If the certificate is not submitted after 120 days, then the conditional approval should be removed and another CQCM shall be submitted.
5. The CQM course will be offered at Fort Hood, Fort Worth, San Antonio, and Fort Polk at least once during the 120 days after restrictions are lifted. More courses are anticipated due to high demand.
6. A separate memo rescinding the temporary certification extension along with the end date of the extensions will be sent after the restrictions are lifted.

7. If interested, alternate online training is available (for a fee) through the following links. These have been vetted by the Fort Worth District.
 - a. <https://www.saj.usace.army.mil/About/Divisions-Offices/Construction/CQMC-Course/>
 - b. <https://www.campusce.net/unf/course/course.aspx?C=16&pc=20&mc=&sc>
8. Point of Contract for this action is Matthew Sargent 210-850-6479.

Christopher L. Morgan, P.E., PMP
Chief, Construction Branch
