The U.S. Army Corps of Engineers (USACE) Fort Worth District hereby informs the public of the release of the draft 2020 Lake Georgetown Master Plan (hereafter Plan), draft Environmental Assessment (EA) and Finding of No Significant Impact (FONSI).

On March 11, 2020 USACE will host an open house public meeting at the Lake Georgetown Project Office located at 500 Lake Overlook Drive, Georgetown, Texas 78633 to provide information and receive public input on the revised Plan for Lake Georgetown.

The meeting will begin with a brief presentation at 6:00 p.m. followed by an open house where attendees can view the current and proposed land use maps, ask questions, and provide comments about the lake and its lands.

Revision of the Master Plan **does not** address in detail the technical operational aspects related to flood risk management or water conservation missions of the lake project. The Master Plan study area includes Lake Georgetown proper and all adjacent recreational and natural resources properties under federal control.

The draft Plan, draft EA and FONSI will be available for download starting March 11, 2020 at the following Fort Worth District website:
