

Fort Polk Vertical Construction MATOCs (General Information)

MATOCs will support new construction and repairs of existing facilities at Fort Polk, LA.

Solicitation(s) estimated to advertise: **Beginning July 2022.**

Requirements will likely include (but not limited to) a mix of Police station, flight control tower, parachute repair shop, physical fitness center, company operations facility, general purpose maintenance shop, barracks, vehicle maintenance shop, aircraft maintenance hangar, and wash racks.

The new Vertical Construction MATOCs will predominately support Fort Polk; however, the MATOCs **may** be used to support other USACE programs and/or in support of other agencies. The contemplated MATOCs can support repairs and alterations to existing facilities.

Table 1 below identifies the MATOCs that are contemplated.

Table 2 lists the *estimated* projects.
