# Fort Worth District – Additional DODAAC

Q: What is a DODAAC?

A: The Department of Defense Activity Address Code is a 6-position code that uniquely identifies an activity that has the authority to CONTRACT

Traditionally, SWF used one DODAAC (W9126G)

SWF has added an IIS specific DODAAC (W518EA)

IIS actions will begin migrating to the new DODAAC but actions in progress will retain the old DODAAC

Military and Civil actions will continue to use W9126G

Typical Ft Worth RFP #:

**W9126G** - **22** - **R** - **0001**

This character is issued sequentially

This character indicates the type of action:  
R = RFP, B = IFB, D = IDIQ, C = Contract, etc

This character indicates the fiscal year the action was created, advertised, or awarded

W9126 is the Fort Worth District DODAAC, every RFP, RFQ, IFB, Contract, etc we issue starts with our DODAAC. It lets all parties know who issued the action.

## What this means to Contractors:

- When searching for Fort Worth specific opportunities in SAM, search under both DODAACs to see all our RFPs, RFQs and IFBs.
- Consider updating any subscriptions or registries to include Fort Worth's second DODAAC.

# PIVOT Source Selection and Price Methodology

## ■ Challenge:

- Rapid changes in market prices
- Pricing may require government to seek additional funds, can take up to 6-9 months in some cases
- Contractors exposed to additional pricing risk if they hold prices

## ■ Response:

- Pilot PIVOT (Prices Include Variation Over Time) methodology
- Contractors bid with prices tied to time periods
- Government weights pricing by time period to develop a Total Adjusted Price used to evaluate price
- Solicitation will provide time periods, weighting
- Only for Best Value acquisitions
