

Integrate Antiterrorism Awareness in Contracting

ARMY
STRONG®

Contractors comprise a significant percentage of Army forces world-wide

Widespread use of contractors present both “soft targets” and unique vulnerabilities to Army forces

- Assess and reduce vulnerabilities associated with the use of support contractors
- Ensure adequate protective measures against terrorist threats
- Ensure contractors receive effective antiterrorism training, threat briefings, and situation updates
- Integrate contractors into antiterrorism working groups, plans, exercises, and suspicious activity reporting
- Ensure antiterrorism responsibility for contractor protection is clearly understood
