Laredo, Texas 78041

Re: Subsurface Release of Jet A Fuel or Aviation Gasoline at the  
Laredo International Airport, 518 Flightline, Building No. 132,  
Laredo (Webb County), Texas  
(LUST ID No. 95021)

Dear Mr. Flores:

As an addendum to the directives issued by this Office on April 18, 1990, you are also required to make immediate arrangements to have a precision tightness test performed if a test has not been conducted on the UST system at the above-referenced facility within the past year. Copies of the test results, including the data sheets, are to be promptly submitted to this Office.

Please note that you are required to notify Mr. Jeff Lewellin at 512/968-3165 at least forty-eight (48) hours in advance of conducting the above-requested tightness test.

If you have any questions or require guidance regarding this matter, please contact Ms. Anne S. Miller of my staff at 512/371-6241. Your cooperation will be appreciated.

Sincerely,

A handwritten signature in cursive script, appearing to read "Dan Airey".
