Mr. Jose L. Flores
Laredo International Airport
518 Flightline, Building 132
Laredo, Texas 78041

Dear Mr. Flores:

This is to inform you of the status of the Defense Environmental Restoration projects at the former Laredo Air Force Base. The Fort Worth District, Corps of Engineers, has received funds to initiate the design phase of the Building Debris/Debris Removal project at the former base. The construction phase for this project is anticipated to begin during the first quarter of fiscal year 1992. The design phase for the removal of underground storage tanks at the former base has been scheduled for the first quarter of fiscal year 1992, and the construction phase of this project has been scheduled for the second quarter of fiscal year 1992. The Kansas City District, Corps of Engineers, has been assigned the hazardous and toxic waste project, and are currently developing a scope of work and cost estimate for that project.

We will keep you informed on the progress of each project.

Sincerely,

A handwritten signature in cursive script, appearing to read "Melvin S. Coomes".
